Radiology Imaging Center Request for Import of Outside CD Images

* Please note that hard copy <u>cross-sectional</u> studies will not be imported into PACS. Digital CD's of any exam and hard copy plain films (i.e. Chest X-rays) will be imported into PACS. Imports can only be done if our system is able to detect the DICOM viewer. Please note there may be an instance when importing is not possible if the DICOM viewer cannot be detected. <u>Please list only pertinent studies related to the patient's current visit</u>. This will help limit the unnecessary use of digital archive space.
